PROFESSIONAL SUMMARY

I am a Node.js Developer with 2+ years of hands-on experience in fullstack development, encompassing both front-end and back-end proficiency. I hold a degree in Computer Science and Information Technology.

EDUCATION

B.S. COMPUTER SCIENCE AND INFORMATION TECHNOLOGY, SEPTEMBER 2016 - OCTOBER 2020

- Igbinedion University Okada, Edo State.

TECHNICAL SKILLS

LANGUAGES/TOOLS/FRAMEWORKS/CONCEPT

- JavaScript, TypeScript, HTTP Protocols, Express.js, MongoDB, PostgreSQL, MySQL, SQlite, RESTful APIs, GraphQL, CI/CD, Jira, Trello, Clickup
- HTML5, CSS, React.js, React Hooks, Next.js, Tailwind CSS, Docker, Agile Methodology, Digital Ocean, Git and Github

PROFESSIONAL EXPERIENCE

SOFTWARE ENGINEER | DEVHEIT | JAN 2024 - TILL DATE

- Developed and maintained robust full-stack applications using Node.js, Next.js and other JavaScript technologies, ensuring high performance, scalability, and security.
- Collaborated with cross-functional teams to gather and analyze requirements design architectures, and implement end-to-end solutions for different projects.
- Created RESTful APIs and integrated them with front-end interfaces, enabling seamless communication between client and server.
- Utilized databases like MongoDB to design efficient data models and optimize data retrieval and storage, contributing to improved application performance.

SOFTWARE ENGINEER | DECAGON | JAN 2023 - TILL DATE

- Developed and maintained robust full-stack applications using Node.js, Express.js and other JavaScript technologies, ensuring high performance, scalability, and security.
- Collaborated with cross-functional teams to gather and analyze requirements design architectures, and implement end-to-end solutions for different projects.
- Created RESTful APIs and integrated them with front-end interfaces, enabling seamless communication between client and server.
- Implemented authentication and authorization mechanisms, such as OAuth and JWT to enhance application security and protect sensitive data.
- Implemented responsive and user-friendly front-end interfaces using modern web technologies such React.js and Next.js ensuring a consistent and engaging user experience.
- Employed continuous integration and continuous development (CI/CD) pipelines to automate the build, testing, and deployment processes, streamlining development workflows and reducing release cycles.
- Mentored and guided junior developers, facilitating knowledge sharing and skill development within the team.
- Utilized databases like MongoDB and PostgreSQL to design efficient data models and optimize data retrieval and storage, contributing to improved application performance.

WEB DEVELOPER INTERN | NIGERIA POLICE FORCE ICT DEPARTMENT | MAR 2021 - FEB 2022

- Developed and maintained web applications using JavaScript, Node.js and React.js technologies during my internship.
- Contributed to the creation of user-friendly interfaces, enhancing the usability and security of digital solutions.

PROJECTS

PAYDEET APPLICATION - CO DEVELOPER
- Developed an app that offers a centralised banking identity, allowing all bank accounts to be linked through a single generated link with Node.js, TypeScript, Next.js, Express.js and MongoDB database.

Project Link https://www.paydeet.com/

E-AID APPLICATION - CO DEVELOPER
- Developed a health-tech product that allows users to get access to verified medical experts through the app with Node.js, TypeScript, React.js, Express.js and MySQL database.
- Integrated google map API so that users can visualize hospitals closest to their location.

QUICKGRADE APPLICATION - CO DEVELOPER
- Developed an examination management system designed to simplify exam-taking and administration process for students and lecturers, as well as provide them with a clear quick understanding of their results with Node.js, Express.js, React.js, TypeScript and SQlite database.
